AAGP name change (*ed*), January, p. 63
ABFP bylaws (*ed*), April, p. 63
abortion
—on demand, Washington state voters approve, in first public referendum, February, p. 173
—septic, aggressive treatment of, *June, p. 98
achalasia of the esophagus (*info pl*), February, p. 135; (*tip*), March, p. 150
acidosis, uremic, correction of (*tip*), May, p. 133
acne, foods as the cause of, *March, p. 102
addicts
—drug, skin lesions in (*tip*), March, p. 146
—nephrotic syndrome in (*ed*), February, p. 65
adenoidectomy and tonsillectomy, indications for, *March, p. 72
aerophagia in children, *May, p. 94
alcoholic, the forgotten addict, *June, p. 92
alkaline phosphatase and serum albumin (*tip*), June, p. 115
aminophylline, intravenously administered (*tip*), March, p. 139
amniocentesis
—and fetal gastrointestinal obstruction (*tip*), February, p. 149
—in management of erythroblastosis fetalis, *January, p. 99
anesthesia
—intravenous (*tip*), April, p. 137
—methoxyflurane, renal failure after (*tip*), April, p. 149
angiography, radioisotopic (*tip*), April, p. 148
anticoagulant therapy: a critique, *June, p. 87
antivivisection (*ed*), March, p. 65
'arrhythmia, unexplained,' respiratory causes of (*tip*), June, p. 111
asbestos and malignant mesothelial tumors (*tip*), April, p. 149
aspergillus infection after cardiac surgery (*tip*), April, p. 141
atrial tachycardia, paroxysmal (*info pl*), May, p. 127
Australia antigen, hepatitis-associated antigen, *January, p. 72

b

backache, inexplicable (*info pl*), April, p. 129
bacteriuria, recurrent, in schoolgirls (*tip*), February, p. 148
barium enema, therapeutic, for diverticular bleeding (*tip*), May, p. 149
Bartholin cysts, *June, p. 85
beer consumption (*ed*), June, p. 63
birth weight and intellectual development (*tip*), January, p. 128
blood gas and pH monitoring (*tip*), April, p. 144
bowel disease, inflammatory, growth retardation in (*tip*), February, p. 149
bowel obstruction, large, due to carcinoma, *March, p. 79
bronchogenic carcinoma, Cushing-like (*tip*), June, p. 119

c

calluses, corns and warts, *April, p. 92
cancer
—carcinoid tumors (*tip*), March, p. 147
—chemotherapy, how to use, *June, p. 72
—Cushing-like bronchogenic carcinoma (*tip*), June, p. 119
—immunologic factors in malignant melanoma (*tip*), February, p. 153
—large bowel obstruction due to carcinoma, *March, p. 79
—malignant melanoma and hydroxyurea (*tip*), March, p. 142
—malignant mesothelial tumors and asbestos (*tip*), April, p. 149
—management of suspected testicular neoplasms, *March, p. 92
—testicular, mithramycin for (*tip*), May, p. 137
—where we stand with (*ed*), April, p. 65
cannulation, umbilical vein (*tip*), March, p. 147
cardiac pacing, *May, p. 84
causalgia (*tip*), February, p. 141
cerebral death, determining, *March, p. 85
children
—abnormal sexual differentiation, *February, p. 72
—aerophagia in, *May, p. 94
—birth weight and intellectual development (*tip*), January, p. 128
—causes of neonatal mortality (*tip*), April, p. 140
—child's place in the car, February, p. 167
—deaf child, *March, p. 88
—depressive illness in childhood (*tip*), February, p. 144

—radiation hepatitis in (*tip*), June, p. 117
—recognizing dwarfs at birth, *June, p. 96
—recurrent abdominal pain in childhood (*tip*), January, p. 124
—recurrent bacteriuria in schoolgirls (*tip*), February, p. 148
—renal transplant and dialysis in (*tip*), April, p. 140
—retinal changes due to phototherapy (*tip*), March, p. 151
—Rocky Mountain spotted fever in (*tip*), February, p. 145
—salt in infant foods (*tip*), January, p. 133
—short-term treatment in child psychiatry, *January, p. 80
—surgery for duodenal ulcer in childhood (*tip*), January, p. 129
—vagotomy and pyloroplasty in (*tip*), April, p. 148
cholecystitis, acute, after surgery (*tip*), May, p. 137
cholestasis, idiopathic recurrent (*tip*), February, p. 145
cigarette sales (*ed*), March, p. 65
cirrhosis statistics (*ed*), May, p. 65
Colorado University plans to increase freshman class to 125 medical students, February, p. 174
combination products (*ed*), May, p. 63
congressional hearings (*ed*), May, p. 63
conjunctivitis, purulent, in children (*info pl*), March, p. 133
consultation for symptoms, and social class (*ed*), February, p. 65
corticosteroids, using, *May, p. 96
cystic fibrosis, prognosis of (*tip*), April, p. 145
cysts, Bartholin, *June, p. 85

d

deaf child, *March, p. 88
deafness from neomycin therapy (*tip*), May, p. 141
death definition, Beecher defends new, against various critics, March, p. 170
depression or disappointment?, *February, p. 99
depressive illness in childhood (*tip*), February, p. 144
dermatologists, skin diets prescribed by (*ed*), March, p. 65
diabetic ketoacidosis, *April, p. 110
diabetic mothers, infants of (*tip*), February, p. 152
dialysis and renal transplant in children (*tip*), April, p. 140
diet and iron, effects of, on hematocrits (*tip*), February, p. 144
diverticular bleeding, therapeutic barium enema for (*tip*), May, p. 149
diverticulitis
—in the elderly, surgical management of, *February, p. 94
—surgery for (*tip*), March, p. 147
dizziness—it may be serious, *April, p. 70
drugs, substitutions of, by pharmacists (*ed*), June, p. 63
Dupuytren's contracture, localized excision in, *April, p. 78
dwarfs, recognizing, at birth, *June, p. 96

e

echovirus Type 30 epidemic (*tip*), March, p. 139
education, medical, how students finance their (*ed*), June, p. 67
endocarditis prophylaxis and systolic clicks (*info pl*), March, p. 134
endocervical polyps, *April, p. 102
ENT and the family physician (*ed*), April, p. 67
enterocolitis, necrotizing, in premature infants (*tip*), April, p. 141
epilepsy, abdominal (*tip*), June, p. 111
erythroblastosis fetalis, amniocentesis in management of, *January, p. 99
esophageal perforation during vagotomy (*tip*), May, p. 144
esophageal strictures, medical management of, *January, p. 105
esophagus, achalasia of (*info pl*), February, p. 135; (*tip*), March, p. 150
estrogen and thromboembolic disorders (*info pl*), January, p. 138
ethacrynic acid during labor (*tip*), January, p. 129
eye problems, common external, how to treat, *April, p. 104

f

family doctors' hospital privileges, May, p. 155
family physician
—a partner in community medicine education, March, p. 165
—and ENT (*ed*), April, p. 67
—classification of (*ed*), March, p. 63
—psychotherapy for, *April, p. 87
family practice clinic at MU Medical Center—Columbia, March, p. 171
family practice department in a medical school, developing a, May, p. 159
family practice program, York, utilizing liberal arts college training, June, p. 145

XUM

FDA and mercury in fish (*ed*), February, p. 63
fever
—new episodes of, in hospitalized children (*tip*), May, p. 149
—persistent, in bacterial meningitis (*tip*), May, p. 145
fibroma, juvenile aponeurotic (*tip*), June, p. 117
fibrosis, cystic, prognosis of (*tip*), April, p. 145
first aid, new medical security service provides vital information for, April, p. 167
food poisoning (*ed*), February, p. 67
foods as the cause of acne, *March, p. 102
furosemide, ototoxicity induced by (*tip*), February, p. 141

g

gallstone ileus (*tip*), February, p. 141
gastrointestinal hemorrhage, massive upper (*tip*), May, p. 140
gastrointestinal obstruction, fetal, and amniocentesis (*tip*), February, p. 149
gastrointestinal tract, foreign bodies in, *February, p. 104
glucose testing, delay after (*info pl*), January, p. 138
gonorrhea
—(*ed*), June, p. 124
—programmed instruction course on, June, p. 124
gout, acute attack of (*info pl*), April, p. 131
GSA and uremia (*ed*), March, p. 65

h

Harvard community health plan operators call program a success, May, p. 165
health care, child, and paramedical personnel (*tip*), February, p. 156
health care plans, tax-financed (*ed*), February, p. 63
health centers, university and area, Carnegie commission study recommends more, February, p. 173
heart
—aspergillus infection after cardiac surgery (*tip*), April, p. 141
—asymptomatic ventricular septal defect (*info pl*), May, p. 125
—cardiac pacing, *May, p. 84
—cardiac pacing in hyperkalemia (*tip*), April, p. 144
—cardiovascular alterations during adrenal surgery (*tip*), April, p. 145
—myocardial revascularization, *January, p. 110
—respiratory causes of 'unexplained arrhythmia' (*tip*), June, p. 111
—systolic clicks and endocarditis prophylaxis (*info pl*), March, p. 134
hematocrits, effects of diet and iron on (*tip*), February, p. 144
hemiplegic patient, home management of, *January, p. 114
hemodialysis, shunts for (*tip*), January, p. 125
hemoglobin's affinity for oxygen (*tip*), March, p. 142
hemorrhage, massive upper gastrointestinal (*tip*), May, p. 140
hepatic dysfunction, postanesthetic (*tip*), March, p. 143
hepatitis, serum, prevention of
—(*ed*), January, p. 67
—and gamma globulin (*info pl*), May, p. 125
hepatitis carriers, NIH distributes plasma to help identify, April, p. 169
hepatitis-associated antigen (Australia antigen), *January, p. 72
herpes zoster, recurrent (*info pl*), May, p. 127
hiatal hernia: changing concepts of treatment, *May, p. 106
hidradenitis suppurativa (*tip*), February, p. 156
hospital certification pattern has not changed, CPHA study shows, June, p. 145
hydroxyurea and malignant melanoma (*tip*), March, p. 142
hyperhidrosis (*info pl*), February, p. 136
hyperkalemia, cardiac pacing in (*tip*), April, p. 144
hypertension
—and low serum potassium (*info pl*), January, p. 139
—benign intracranial (*tip*), May, p. 141
hypertension-hypokalemia work-up (*info pl*), February, p. 135
hypoglycemia
—and islet cell tumor (*tip*), May, p. 136
—islet cell tumor with, *March, p. 98

i

ileus, gallstone (*tip*), February, p. 141
immunity with mumps virus vaccine (*tip*), January, p. 125
immunization, OPV (*tip*), January, p. 133
immunizations, travelers' (*info pl*), January, p. 139
income tax return, your 1970, January, p. 157
insulinoma, streptozotocin for (*tip*), April, p. 137
intellectual development and birth weight (*tip*), January, p. 128
intellectual function of the elderly (*tip*), January, p. 125
intestinal absorption in Zollinger-Ellison syndrome (*tip*), January, p. 132
intestinal duplication (*tip*), January, p. 132
intracranial hypertension, benign (*tip*), May, p. 141
iron and diet, effects of, on hematocrits (*tip*), February, p. 144
itching as a symptom of disease (*ed*), March, p. 67

j

joint disorders, temporomandibular, *February, p. 90

k

kernicterus in small premature infants (*tip*), March, p. 143
ketoacidosis, diabetic, *April, p. 110

l

L-dopa therapy, miosis during (*tip*), January, p. 128
lung infection, prophylaxis of postoperative (*tip*), June, p. 115

m

MECO project, SAMA's, expects more than 1,000 students this summer, April, p. 167
Medicare fees, 1969 customary charges for physicians in locality basis for, March, p. 169
medications, preoperative (*tip*), June, p. 113
medicine's lesson from history, April, p. 159
MEDIHC office opened in Bethesda for administering program, June, p. 146
melanoma, malignant
—and hydroxyurea (*tip*), March, p. 142
—immunologic factors in (*tip*), February, p. 153
menarche, age of (*tip*), May, p. 136
meningitis, bacterial, persistent fever in (*tip*), May, p. 145
methadone maintenance program (*tip*), February, p. 149
miliary tuberculosis (*tip*), May, p. 133
miosis during L-dopa therapy (*tip*), January, p. 128
Missouri Board of Health endorses state aid plan for four private schools, February, p. 174
mithramycin for testicular cancer (*tip*), May, p. 137
mobile emergency unit, specially-designed, now in use at KU Medical Center, May, p. 164
mumps, epidemiology of (*tip*), May, p. 144
mumps virus and tuberculin hypersensitivity (*tip*), March, p. 143
mumps virus vaccine, immunity with (*tip*), January, p. 125
Murphy-Pattee test (*info pl*), March, p. 134

n

National Accelerator Laboratory (*ed*), April, p. 65
necrotizing enterocolitis in premature infants (*tip*), April, p. 141
neomycin therapy, deafness from (*tip*), May, p. 141
neonatal mortality, causes of (*tip*), April, p. 140
nephrotic syndrome in addicts (*ed*), February, p. 65
neuroblastoma and Wilms' tumor, survival in (*tip*), February, p. 145
newspaper reporting of untrue facts (*ed*), January, p. 65
nystagmus, infantile (*tip*), March, p. 151

o

obstetrics
—aggressive treatment of septic abortion, *June, p. 98
—amniocentesis in management of erythroblastosis fetalis, *January, p. 99
—ethacrynic acid during labor (*tip*), January, p. 129
—fetal gastrointestinal obstruction and amniocentesis (*tip*), February, p. 149
—management of the Rh-negative gravida, *March, p. 104
—Rh_0(D) immune globulin to prevent Rh hemolytic disease, *February, p. 85
—spider angiomata and pregnancy (*info pl*), February, p. 136
—value of school attendance for young pregnant mothers (*tip*), April, p. 149
OPV immunization (*tip*), January, p. 133
osmol poisoning, acute (*tip*), March, p. 150
osteoporosis and thyrocalcitonin (*info pl*), April, p. 129
otitis media, chronic, in adults (*info pl*), March, p. 133
ototoxicity induced by furosemide (*tip*), February, p. 141
oxygen, hemoglobin's affinity for (*tip*), March, p. 142

p

packed red cells, *May, p. 81
pain, recurrent abdominal, in childhood (*tip*), January, p. 124
paramedical personnel and child health care (*tip*), February, p. 156
parotitis, neonatal suppurative (*tip*), March, p. 151
peer review (*ed*), January, p. 63; (*ed*), June, p. 63
penicillin, inactivation of (*tip*), February, p. 157
personalities

Subject Index

a

AAGP journalism awards, winners of, August, p. 119
AAGP survey reveals need for doctor's assistants but also deterrents, July, p. 141
abdominal pain, recurrent, transit time in (*tip*), November, p. 121
ABFP announces names of charter diplomates, October, p. 145
abortion, experience with (*tip*), October, p. 116
adenopathy, supraclavicular, in prostatic cancer (*tip*), November, p. 135
adrenergic blockade for paralytic ileus (*tip*), October, p. 115
AMA adopts policy on American students in foreign schools, October, p. 158
AMA membership facts (*ed*), December, p. 51
AMA Physicians' Placement Service (*ed*), July, p. 59
AMA placement service records show imbalance in family practice area, December, p. 127
ambulance design and equipment (*tip*), November, p. 126
AMCAS (*ed*), November, p. 61
Ameriplan
—(*ed*), November, p. 59
—AHA officially adopts, hopes to push program in Congress, November, p. 148
amphetamines, a clinical view of, *November, p. 82
ampulla of Vater, carcinoma of (*tip*), November, p. 135
antibiotics and thrombophlebitis (*info pl*), July, p. 124
anticoagulants for myocardial infarction (*info pl*), July, p. 124
appendicitis, splenic rupture masquerading as acute (*tip*), September, p. 123
appendix, perforated, in children, *December, p. 60
arrhythmias in acute myocardial infarction, management of, *July, p. 68
arteriography, coronary, *November, p. 75
arteriovenous fistulas, pulmonary (*tip*), November, p. 122
arthritis, rheumatoid, patient with, *July, p. 108
aspiration pneumonia (*ed*), August, p. 47
aspirin and bleeding (*tip*), November, p. 126
asthma, fundamentals of treatment of, *August, p. 82
automobile occupants, protection of, December, p. 117

b

bacitracin-neomycin surgical skin preparation (*tip*), November, p. 133
bacteremia, pneumococcal (*tip*), November, p. 123
bleeding
—and aspirin (*tip*), November, p. 126
—and coumarins (*info pl*), July, p. 123
blood banks
—commercial, and hepatitis (*tip*), September, p. 120
—wishing AABB accreditation must test for hepatitis, November, p. 152
blood loss, balanced fluid gelatin for (*tip*), September, p. 124
blood pH, effect of, on salicylate poisoning (*tip*), October, p. 127
bowel disorders, managing ulcerative and granulomatous, *November, p. 100
bronchiolitis, steroid treatment of (*tip*), August, p. 97
burns, electrical mouth, in children (*tip*), October, p. 117

c

Cahal, Mac F., resigns as executive director and publisher, September, p. 6
cancer
—catecholamine excretion in sympathoblastomas (*tip*), August, p. 101
—cervical, nationwide study in the family doctor's office, July, p. 137
—childhood thyroid (*tip*), November, p. 123
—etiology of esophageal (*tip*), November, p. 130
—genetics, skin and cancer control, *September, p. 87
—hepatocellular carcinoma and the carcinoid syndrome (*tip*), November, p. 127

—hormonal management of thyroid (*tip*), September, p. 116
—hydroxyurea and x-ray for lung (*tip*), August, p. 96
—natural history of thyroid (*tip*), November, p. 131
—of the ampulla of Vater (*tip*), November, p. 135
—of the right colon (*ed*), October, p. 61
—renal cell carcinoma, *October, p. 89
—supraclavicular adenopathy in prostatic (*tip*), November, p. 135
—treatment of multiple myeloma (*tip*), October, p. 123
catecholamine excretion in sympathoblastomas (*tip*), August, p. 101
cause-and-effect relationships (*ed*), December, p. 51
cerebral dysfunction, minimal, in ITP (*tip*), October, p. 128
children
—adolescent drug abuse (*tip*), December, p. 95
—adolescent neurologic disease (*tip*), October, p. 124
—adolescent sexuality (*tip*), November, p. 129
—cardiac surgery in the first year of life (*tip*), December, p. 101
—childhood poisoning (*ed*), September, p. 63
—childhood thyroid cancer (*tip*), November, p. 123
—congenital ring constrictions (*tip*), December, p. 103
—congenital syphilis (*info pl*), September, p. 107
—congenital syphilis resurgent (*tip*), July, p. 128
—electrical mouth burns in (*tip*), October, p. 117
—epidemiology of lower respiratory disease in (*tip*), November, p. 125
—excess magnesium in the newborn (*tip*), November, p. 134
—growth failure with congenital heart disease (*tip*), September, p. 115
—hypertension in (*tip*), October, p. 120
—identity development in adopted (*tip*), November, p. 121
—intestinal infarction in childhood (*tip*), November, p. 121
—kidney transplantation in (*tip*), October, p. 123
—lead poisoning in childhood (*tip*), December, p. 105
—maternal filicide (*tip*), August, p. 99
—methadone 'OD' in (*ed*), August, p. 45
—migraine and hemiplegia in childhood (*tip*), October, p. 115
—nasotracheal tubes in infants (*tip*), November, p. 133
—neonatal hypoglycemia (*tip*), December, p. 103
—neurologic learning disability syndrome, *July, p. 95
—orthopedic examination of the infant and child, *August, p. 60
—penicillin for 'penicillin-allergic', *October, p. 85
—perforated appendix in, *December, p. 60
—protracted diarrheal syndrome of infancy (*tip*), July, p. 127
—reactions to rubella vaccine (*tip*), August, p. 96
—rheumatic fever prophylaxis, discontinuing (*info pl*), September, p. 107
—survivors of meningomyelocele at school age (*tip*), October, p. 119
—synovitis of the hip in (*tip*), October, p. 116
—umbilical vessel catneterization (*tip*), October, p. 121
cholecystectomy, timing of (*tip*), October, p. 129
coccygectomy for drainage of pelvic abscess (*tip*), November, p. 131
colitis, granulomatous and diverticulitis (*tip*), August, p. 101
colon cancer, right (*ed*), October, p. 61
Colorado students model new education look at AAFP convention, December, p. 128
combination drugs (*ed*), July, p. 59
computer program to handle patients' case histories, Duke University develops, July, p. 142
continuation study requirements, August, p. 115
coumarins and bleeding (*info pl*), July, p. 123
cystic fibrosis (*tip*), August, p. 97

d

desquamative interstitial pneumonia (*tip*), August, p. 100
diarrheal syndrome of infancy, protracted (*tip*), July, p. 127
diet in uremia, *September, p. 75
dietary magnesium (*info pl*), July, p. 123
diverticulitis
—and granulomatous colitis (*tip*), August, p. 101

XUM

—with perforation (*tip*), August, p. 95
D.O. licensing, California court ruling for osteopaths may reinstate, November, p. 153
doctor-patient relationship, therapeutic use of, *July, p. 103
doctor's assistants, AAGP survey reveals need for, but also deterrents, July, p. 141
dolls, baby (*ed*), November, p. 59
drug abuse, adolescent (*tip*), December, p. 95
drug warning alert, September, p. 146
drugs, combination (*ed*), July, p. 59
dumping syndrome (*tip*), October, p. 125

e

ear piercing
—(*ed*), August, p. 47
—complications of, *August, p. 66
emotional crisis, written homework for the patient with an, *December, p. 69
encephalopathy, lactulose treatment of hepatic (*tip*), October, p. 127
endotracheal tube position (*tip*), December, p. 105
esophageal cancer, etiology of (*tip*), November, p. 130
esophageal sphincter and smoking (*ed*), July, p. 63
esophageal varices
—and nasogastric tubes (*info pl*), July, p. 124
—portasystemic shunts for (*tip*), November, p. 130
esophagus, spontaneous rupture of (*tip*), September, p. 117
eye, the red, *September, p. 81

f

family medicine, Mississippi University creates division of, July, p. 142
family physicians urged to help in children's health care study, November, p. 147
family practice, approved graduate training programs in, September, p. 139
family practice consultant for residency programs, Army names, December, p. 127
family practice status in Israel reported on by Dr. Franz Steinitz, November, p. 147
fibromatosis, plantar (*tip*), October, p. 129
fibrosis, cystic (*tip*), August, p. 97
filicide, maternal (*tip*), August, p. 99
fluid gelatin, balanced, for blood loss (*tip*), September, p. 124
Forrester's Law (*ed*), October, p. 59

g

gastrointestinal disorders and oral contraceptives (*tip*), October, p. 121
GC and infertility (*ed*), November, p. 61
general practice, Australia gives plans for fifth world conference on, July, p. 141
genetics, skin and cancer control, *September, p. 87
growth failure with congenital heart disease (*tip*), September, p. 115

h

health as an individual matter (*ed*), September, p. 59
health professionals, the use of allied, November, p. 144
health subcommittee field hearings appear to have been 'staged,' August, p. 120
heart
—anticoagulants for myocardial infarction (*info pl*), July, p. 124
—cardiac surgery in the first year of life (*tip*), December, p. 101
—community coronary care (*ed*), December, p. 53
—coronary arteriography, *November, p. 75
—growth failure with congenital heart disease (*tip*), September, p. 115
—infection after cardiovascular surgery (*tip*), September, p. 121
—management of arrhythmias in acute myocardial infarction, *July, p. 68
—pacemaker catheter implantation (*tip*), October, p. 119
—'progress' in the treatment and prevention of coronary heart disease, *September, p. 68
—stress and coronary heart disease (*info pl*), September, p. 107
—tachycardia after cardiac valve replacement (*tip*), August, p. 99
helpful hints from readers (*ed*), November, p. 59
hemiplegia and migraine in childhood (*tip*), October, p. 115

hemodialysis, home (*tip*), September, p. 117
hemophilus infections (*tip*), September, p. 115
hemopneumothorax after vagotomy (*tip*), August, p. 100
hemoptysis (*ed*), September, p. 61
hemorrhage with pancreatic pseudocysts (*tip*), October, p. 120
hepatic encephalopathy, lactulose treatment of (*tip*), October, p. 127
hepatitis and commercial blood banks (*tip*), September, p. 120
hepatocellular carcinoma and the carcinoid syndrome (*tip*), November, p. 127
hernia transplant (*ed*), December, p. 53
hernias, repair of umbilical (*tip*), November, p. 134
hip
—synovitis of, in children (*tip*), October, p. 116
—the operative, *October, p. 68
Hirschsprung's disease, symptoms of (*tip*), November, p. 129
hormonal management of thyroid cancer (*tip*), September, p. 116
horsemeat, a clinical nutrition note (*ed*), October, p. 63
hospital occupancy, many factors figure in slump of nation's, November, p. 152
hospitals, financially healthy (*ed*), September, p. 59
hydroxyurea and x-ray for lung cancer (*tip*), August, p. 96
hyperplasia of the thymus gland, *October, p. 95
hypertension in children (*tip*), October, p. 120
hypoglycemia, neonatal (*tip*), December, p. 103

i

identity development in adopted children (*tip*), November, p. 121
ileus, paralytic, adrenergic blockade for (*tip*), October, p. 115
immunization, status of rubella (*tip*), September, p. 121
impetigo contagiosa, *October, p. 75
infertility and GC (*ed*), November, p. 61
intestinal infarction in childhood (*tip*), November, p. 121
intrauterine device, the shield, *September, p. 93
ischemic attacks, transient, *October, p. 96
ITP, minimal cerebral dysfunction in (*tip*), October, p. 128

j

joint fluid analysis, *November, p. 87

k

kanamycin, intraperitoneal, for peritonitis (*tip*), December, p. 97
kidney transplantation in children (*tip*), October, p. 123
klebsiella, control of infection due to (*tip*), July, p. 129
knee, rheumatoid, *August, p. 52
Kveim test for sarcoidosis (*info pl*), July, p. 123

l

lactulose treatment of hepatic encephalopathy (*tip*), October, p. 127
lead poisoning in childhood (*tip*), December, p. 105
lepromatous leprosy, neurologic features of, *July, p. 84
levodopa in treating parkinsonism, *November, p. 95

m

magnesium
—dietary (*info pl*), July, p. 123
—excess, in the newborn (*tip*), November, p. 134
malpractice laws, Kansas legislature to consider improving, August, p. 121
M.D. shortage could worsen by 1980, labor statistics bureau believes, August, p. 119
mediastinitis, acute suppurative (*tip*), September, p. 124
Medicaid claims, two methods open for physician certification of, November, p. 153
Medical Education Fund names Dr. Vernon Lippard its medical director, December, p. 129
medical licensure by reciprocity, Florida legislature to allow, October, p. 158
medical school applications data, some (*ed*), December, p. 55
medical schools, Americans in foreign (*ed*), July, p. 61
megacolon, toxic (*tip*), November, p. 127
meningomyelocele, survivors of, at school age (*tip*), October, p. 119
methadone 'OD'—especially in children (*ed*), August, p. 45
Michigan preparing five-year program for bright students, October, p. 159

XUM

migraine and hemiplegia in childhood (*tip*), October, p. 115
'morning-after-pill' (*info pl*), September, p. 108
mouth burns, electrical, in children (*tip*), October, p. 117
multiple sclerosis prevalence and mortality (*tip*), August, p. 95
musculoskeletal disorders, extra-articular, of the upper extremity, *September, p. 94
myeloma, treatment of multiple (*tip*), October, p. 123
myocardial infarction
—anticoagulants for (*info pl*), July, p. 124
—management of arrhythmias in acute, *July, p. 68

n

nabothian cyst, treatment of, *October, p. 82
names for children (*ed*), October, p. 59
nasogastric tubes and esophageal varices (*info pl*), July, p. 124
nasotracheal tubes in infants (*tip*), November, p. 133
neomycin-bacitracin surgical skin preparation (*tip*), November, p. 133
nephrosis, treatment of (*tip*), October, p. 124
neurologic disease, adolescent (*tip*), October, p. 124
neurologic features of lepromatous leprosy, *July, p. 84
neurologic learning disability syndrome, *July, p. 95
newspaper reporting (*ed*), July, p. 61

o

obstetrics
—experience with abortion (*tip*), October, p. 116
oral contraceptives
—and gastrointestinal disorders (*tip*), October, p. 121
—and the skin, *November, p. 68
orthopedic examination of the infant and child, *August, p. 60

p

pacemaker catheter implantation (*tip*), October, p. 119
pancreatic pseudocysts, hemorrhage with (*tip*), October, p. 120
'paramedical' worker, patient as a (*ed*), November, p. 63
parkinsonism, levodopa in treating, *November, p. 95
patient care, quality of (*ed*), October, p. 61
patient's bill of rights, preamble of new JCAH standards sets forth, September, p. 145
pelvic abscess, coccygectomy for drainage of (*tip*), November, p. 131
penicillin for 'penicillin-allergic' children, *October, p. 85
peritonitis, intraperitoneal kanamycin for (*tip*), December, p. 97
personalities
—Duval, M. K., July, p. 39
—Fleming, S., December, p. 37
—Grobe, J. L., November, p. 39
—Hoffman, C. A., August, p. 33
—Rousselot, L. M., December, p. 37
—Steinfeld, J., October, p. 37
—Wilbur, R. S., September, p. 39
physicians, there were 11,032 new, among 334,028 total in U.S. in 1970, September, p. 145
physicians assistants, national headquarters for, opens in Tampa, Fla., September, p. 147
plantar fibromatosis (*tip*), October, p. 129
pneumococcal bacteremia (*tip*), November, p. 123
pneumonia
—aspiration (*ed*), August, p. 47
—desquamative interstitial (*tip*), August, p. 100
poisoning
—childhood (*ed*), September, p. 63
—lead, in childhood (*tip*), December, p. 105
—salicylate, effect of blood pH on (*tip*), October, p. 127
polio boosters, oral (*info pl*), September, p. 108
portasystemic shunts for esophageal varices (*tip*), November, p. 130
propranolol, clinical indications for, *December, p. 84
prostatic cancer, supraclavicular adenopathy in (*tip*), November, p. 135
prostatic resection in patients with renal insufficiency, *July, p. 80
pulmonary arteriovenous fistulas (*tip*), November, p. 122

q

quadriceps contracture (*tip*), August, p. 100

r

red eye, *September, p. 81
renal allograft, hyperacute rejection of (*tip*), December, p. 99
renal cell carcinoma, *October, p. 89
renal insufficiency, prostatic resection in patients with, *July, p. 80
respiratory disease
—epidemiology of lower, in children (*tip*), November, p. 125
—smoking among patients with (*tip*), July, p. 131
respiratory failure, management of acute (*tip*), July, p. 127
respiratory syncytial virus (*tip*), September, p. 125
retrocaval ureter, *December, p. 83
rheumatic fever control (*tip*), September, p. 123
rheumatic fever prophylaxis, discontinuing (*info pl*), September, p. 107
rheumatoid arthritis, the patient with, *July, p. 108
rheumatoid knee, *August, p. 52
ring constrictions, congenital (*tip*), December, p. 103
rubella immunization, status of (*tip*), September, p. 121
rubella vaccine, reactions to (*tip*), August, p. 96
Rush Medical College reopened this fall to undergraduates, October, p. 159

s

salicylate poisoning, effect of blood pH on (*tip*), October, p. 127
salt and water shifts, postoperative (*tip*), August, p. 95
SAMA (*ed*), August, p. 43
sarcoidosis, Kveim test for (*info pl*), July, p. 123
schools of medicine, new schools bring nation's total to 108, November, p. 151
scoliosis, recognizing early, *December, p. 76
sepsis, infusion catheter (*tip*), October, p. 128
sexuality, adolescent (*tip*), November, p. 129
shield intrauterine device, *September, p. 93
skin
—and the oral contraceptives, *November, p. 68
